

SUPERDECK SERIES 8" DECK HEIGHT DISPLAY GAS PIZZA OVENS SERIES: Y-DSP

Bakers Pride® Y-DSP series deck ovens feature the largest profile of our display ovens and is perfect for high-volume pizza and all-purpose baking operations. These models are designed to be built in behind a decorative facade of brick, stone, or tile. Front and side skirts allow tile or stone to be easily installed around the legs, while a dome top accent finishes off the old-world look. You also have the choice to simply display the oven in stainless steel or finish with black-powder-coated control panels and hardwood door handles for an elegant touch.

Models are available in your choice of Lightstone Fibrament decks with an 8" deck height or brick-lined decks, which offer faster baking and recovery times and deck height of 7.5". This series also features independently controlled top and bottom heat dampers to ensure perfectly balanced results. Choose from two different deck areas and overall oven widths (78" or 84") to suit your needs.

The Y-DSP is constructed with heavy-duty, .25" angle iron frame, which is fully welded to allow for double-stacking. Oven exteriors are all heavy-duty stainless steel and are fully insulated for cooler outer temperatures and consistent interior temperatures.

Options are available to accommodate the configuration of your kitchen, such as side-mounted controls and special-height legs.

FEATURES AT A GLANCE

- 120,000 total BTUH with natural or LP gas
- 300–650°F (148–343°C) temperature range
- Choose deck area: 60" x 36" or 66" x 44"
- Choose overall width: 78" or 84"
- 2" (51 mm) thick Lightstone fibrament or brick-lined decks
- 8" (203 mm) deck height (7.5" (191 mm) for brick-lined)
- Stackable
