LONG LASTING KNIFE

One of the main innovations of this equipment, is its stainless steel knife that is highly resistant and increases the life of the blade. Aside from the excellent presentation offers your business, this innovation because of its knife size (13" diameter), this slicer can process cuts like clods or shoulders that are not possible to manage in any other slicer with a regular knife. Therefore, the possibilities of applications for this equipment are really wide open.

THE VEGETABLE SLICER ACCESSORY (VSA- 300) FITS PERFECTLY

Remember when you use to spent a lot of time chopping. Now you can simply use the NEW accessory VSA-300 that will help you to reduce the time of execution, and visually gives you a higher quality than using a regular knife. It processes vegetable or fruits up to 3.25" diameter size
