Digitally Controlled

Lint Tolerant Condenser Coil

LED Lighting System

Automatic Stainless Steel Condensate Control System

Priority Air-Flow

SF28M: Designed to optimize merchandising experience to the highest standards of quality and performance.

Refrigeration:

- Traditional non-removable, split forced-air refrigeration system employs R-404a refrigerant within a sealed capillary tube system.
- · Condensing unit is bottom-mounted and can be accessed from the front for ease of maintenance
- Priority, directed air flow provides optimum cooling and energy efficiency through front of unit for optimized heat exchange ventilation.
- Lint-Tolerant Design with wide spaced fins, maximizes airflow over the compressor and minimizes build-up of dust and lint.
- · Corrosion resistant coated evaporator coil.
- · Automatic, stainless steel condensate control system.
- Equipped with Energy Efficient Digital Controller featuring visual/audible product protection alarm.
 Freezers factory preset for -23.3°C (-10°F).
- Technologically advanced ProducTemp[™] provides exterior product temperature display. Displays to a resolution within 1°.
- Energy-Saving, Time-Initiated, Temperature-Terminated Defrost System with Evaporator Fan Motor Delay during Defrost and Fan Motor Interrupt on Door Opening. Features Manual Defrost Override.
- · Low Energy Cabinet Mullion Heater prevents frosting.
- Quality, self-lubricating and sealed motors with streamlined air-flow provide quieter yet robust refrigeration.
- · Equipped with Digital Thermometer.

Cabinet:

- Exterior durable appliance white.
- Interior NSF approved white aluminum liner with stainless steel floor.
- · Ergonomic raised interior floor.
- Insulation cabinet is foamed-in-place with eco-conscious, polyurethane insulation.
- · Heavy duty thread-in leveler legs.

Doors:

- Self-Closing Swing Doors feature hold-open position, and spring-back protection.
- · Magnetic gaskets are single piece bead-mount construction easily removable for cleaning.
- Low energy, heated and insulated safety glass with black extruded frame, prevents frost.
- Durable, external door handle(s).

Lighting:

• Energy Efficient LED Lighting System for crisp Illuminated Signage and Interior Display, on Switch.

Storage:

- Six (6) white coated shelves 26 ¹/₄"W x 22"D (667mm x 559mm), are NSF approved.
- Heavy duty aluminum shelving pilasters will not peel or chip adjustment of ¹/₂" (13mm) increments.

Electrical:

 Factory power cord installed for connection to a sole-use (dedicated) 115V/60Hz/1-Phase, 15 Amp circuit.

Special Inspection by CSA International
